@SakshamGupta812

@saksham-gupta-31b656320

SKILLS

- ❖ **Programming:** Python, Java, C, JavaScript
- ❖ **Machine Learning:** Scikit-learn, Pandas, NumPy, Matplotlib, Seaborn
- ❖ **Web Development:** HTML, CSS, Flask, Bootstrap
- ❖ **Tools:** Git, GitHub, VS Code

Education

- ❖ Delhi Technical Campus, GGSIPU
- ❖ Bachelor of Technology (Computer Science & Technology)
- ❖ Expected Graduation: 2028
- ❖ Delhi Public School, Udhampur
Class XII (CBSE)

ACADEMIC PROJECTS

AI Speech Emotion Recognition (Python | Flask | Librosa | Scikit-learn)

- Developed an AI-powered Speech Emotion Recognition web application that classifies emotions from WAV audio using MFCC feature extraction and an SVM classifier.
- Built a responsive Flask web interface for real-time speech emotion prediction.

Multi Disease Prediction System (Python | Flask | Scikit-learn | SQLite)

- Developed a Flask-based Machine Learning application to predict Diabetes, Heart Disease, and Breast Cancer using trained classification models.
- Implemented data preprocessing, feature scaling, model deployment, and PDF report generation.

Netflix Clone (HTML | CSS)

- Developed a responsive Netflix-inspired landing page with a modern and user-friendly interface.

Text-to-Speech Converter (HTML | CSS | JavaScript)

- Built a browser-based web application that converts text into speech using the browser's Speech Synthesis API.

Languages

English	Very good
Hindi	Very good
